Make sure you know what to do

**Fire action posters**

When you are in a building, familiarise yourself with the information on the building Fire Action Notice. These will be located adjacent to fire alarm break glass call points.

## Fire alarms

- This building has a fire alarm system that incorporates automatic fire detection.
- A red break glass fire alarm call point is located at every staircase or external exit door.
- If you discover a fire and the fire alarm is not yet sounding, then raise the alarm by pressing the red break glass call point.
- The sound will be a two tone siren.
- Visual warning signals are provided which will be a strobe and sounder beacon.
- A Deaf Alerter system is installed, for staff and students who may have been issued a pager as part of their PEEP process.

## Fire exits

- On hearing or seeing the fire alarm sounding make your way to the nearest available safe exit route and leave the building without delay.
- Swipe access doors on escape routes will automatically release on the activation of the fire alarm.
- A green break glass call point is located next to the swipe access door. Should the door not release press the middle of the green break glass call point and the door will release.

## Fire assembly point

- Make your way to the designated fire assembly point. This will be identified in the building fire action notice.
- Do not re-enter the building.
- Wait at the assembly point until you are informed by the Evacuation Officer or University Security that it is safe to return to the building.

## Passenger lifts

- This building has a passenger lift. When the fire alarm sounds the lift will automatically go to the ground floor where the lift doors will open.
- The lift will remain out of action until the fire alarm is over.
- Do not attempt to use the lift in the event of a fire emergency – always use the nearest available safe fire exit route via the stairs.

## Disabled refuge

- This building allowing access to the upper floors (via a passenger lift) has fire refuges.
- All refuges provide protection from fire and smoke for a minimum of 30 minutes and can be found on the exit routes in the fire exit staircase, or evacuation lift lobby.
- If the fire alarm sounds you should move to a refuge.
- A member of the building fire evacuation team will return to you in the refuge until there is a need to be evacuated, or the all clear is given.
- While waiting in a refuge you may have a designated friend or carer stay with you in the refuge during the fire alarm activation.
- You will be assisted from the refuge on confirmation of a real fire. This is to avoid unnecessary stress upon you being evacuated due to a false alarm.
- An Escape chair and an Escape mattress is located in a nearby building.
- The University has trained staff to operate the evacuation lift, escape chair, and escape mattress.

## Evacuation lift refuge

- This buildings lift doubles up as an evacuation lift.
- Follow the instructions on the information poster in the refuge to summon assistance via the silver Windcrest communications intercom.
- Press the button on the evacuation intercom button in order to let Security know that you in the refuge and may need assistance. The lift will then be brought up to you and you will be assisted into the lift.
- The lift will need to be operated by a member of the building evacuation team.

## Staircase refuge

- Follow the instructions on the information poster in the refuge to summon assistance via the red Commend communications intercom.
- Press the button on the evacuation intercom in order to let Security know that you are in the refuge and may need assistance.
